

## AT YOUR SERVICE

The Port of Boulogne Calais provides support in setting-up E-modal within your structure:

- during your initial use of the E-modal platform (creating an account, registering a trailer, etc.)
- during the training of your operations manager.

## MODERNIZATION OF THE UNACCOMPANIED CARGO SERVICE

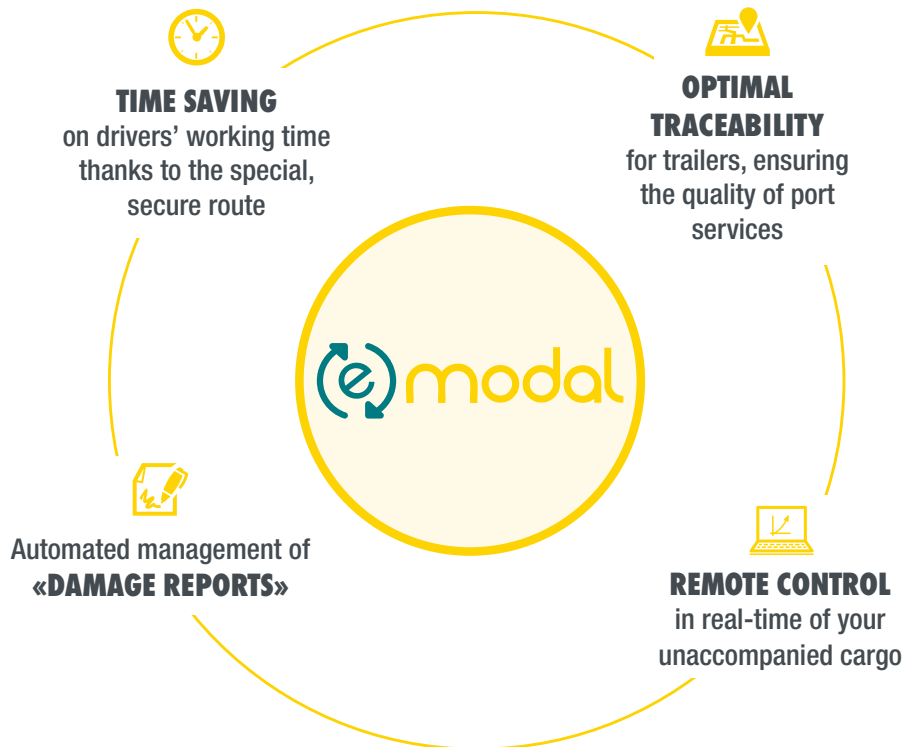

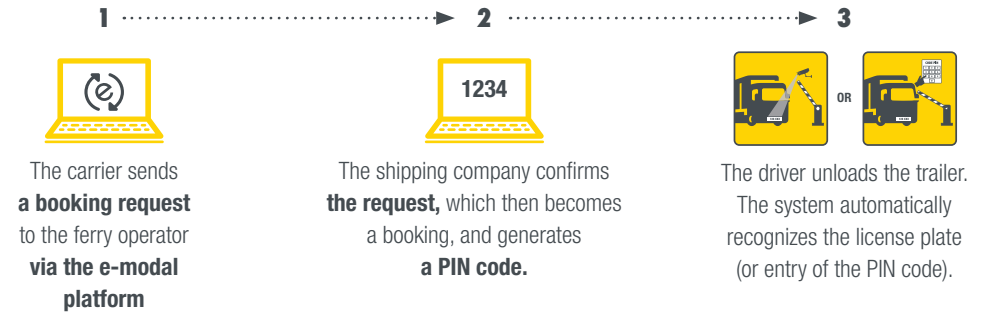

**e)modal** is an innovative Port Community System (PCS) specifically designed for the transshipment of unaccompanied trailers.

As a collaborative information tool, it brings together all the stakeholders in port throughput: carriers, port services, harbour master's office, shipping companies, customs, the UK Border Force...

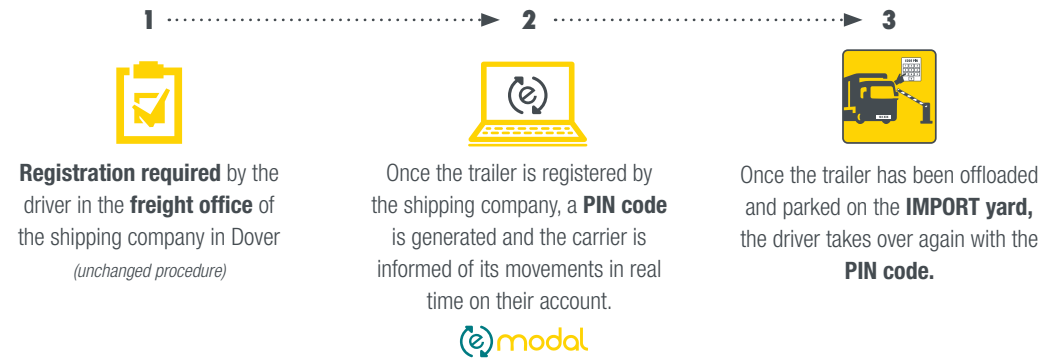

It enables a **completely paperless transshipment process** and provides real-time traceability, as well as time-saving in the transport chain.

## EXPORT PROCESS (OFFLOADING A TRAILER FOR DOVER)

## IMPORT PROCESS (TAKING OVER A TRAILER FROM DOVER)

**THE PIN CODE CAN ONLY BE USED ONCE.**  
This ensures that only the holder can take the trailer out of the port. It is available on the «reservations» or «cargo handling» tab of the account.

**LITIGATION**  
In case of dispute on the physical condition of a trailer, photographs taken at the entrance and exit of the yards will be available via the shipping company.
